DHANASARATHY P

COMPUTER SCIENCE AND ENGINEERING

PROFESSIONAL SUMMARY

Computer Science Engineering student with a strong foundation in Python, Java, Data Structures, Machine Learning and Web Development. Eager to apply technical skills to practical projects, solve problems and learn emerging technologies.

EDUCATION

• B.E. Computer Science and Engineering

Kamaraj College of Engineering and Technology
Currently Pursuing CGPA: 6.5

• Higher Secondary Certificate — 2024

The Indian 3c Matric. Hr. Sec. School, Vilachery, Madurai. Percentage: 73.5%

• Secondary School Leaving Certificate — 2022

The Indian 3c Matric. Hr. Sec. School, Vilachery, Madurai. Percentage: 64.2%

TECHNICAL SKILLS

- Programming: Python, C, C++, Core Java
- Core Areas: Data Structures, Machine Learning
- Web Development, Git / GitHub

LANGUAGES

- Tamil
- English
- Hindi

INTERNSHIP

Reccsar Private Limited

- Gained practical experience in data collection, cleaning, preprocessing, and exploratory data analysis.
- Worked with Python, Pandas, NumPy, and Matplotlib to analyze datasets and create meaningful visualizations.
- Applied data-driven problem-solving techniques to identify patterns, trends, and insights from real-world datasets.

PROJECTS

VISA Approval Prediction Using Machine Learning

- Predicts visa approval from applicant data using Python, Pandas and Scikit-learn.
- Preprocessed applicant features, encoded categorical data and prepared datasets for model training and evaluation.
- Applied machine learning classification to identify approval patterns and support prediction of outcomes.

Smart Classroom Energy Saver

- IoT-based system designed to reduce unnecessary classroom energy usage.
- Uses classroom conditions and sensor inputs to support automatic control of lights and other energy-consuming devices.
- Helps minimize energy wastage through real-time monitoring and intelligent device control.

IoT Real-Time Monitoring System

- Uses IoT and MQTT for real-time sensor monitoring.
- Collects sensor readings and transmits them through MQTT for reliable real-time communication.
- Enables continuous monitoring of connected devices and supports timely observation of sensor data.

CERTIFICATIONS

- Data Analytics Essentials – Cisco Networking Academy (Jun 2026)
- Apply AI: Analyze Customer Reviews – Cisco Networking Academy (Jun 2026)
- Introduction to Modern AI – Cisco Networking Academy (Jun 2026)
- Java Foundation Certification – Wingspan (Oct 2025)
- Programming using Java – Wingspan (Oct 2025)
- Basics of Python – Wingspan (Oct 2025)

TRAINING

- Value Added Course in Quantanics – Internet of Things (IoT) (Jun 2026).
- Completed an internship in Reccsar Private Limited in Data Analytics (Jun 2026).
